6. How many years of experience does Dr. Harmeet Malhotra have?

Dr. Harmeet Malhotra has 36 years of experience in the medical field.

7. Who is a Gynaecologist?

A gynecologist is a medical doctor specializing in women's reproductive health. This includes the vagina, ovaries, uterus, and breasts. Gynecologists also typically handle pregnancies and childbirth, as obstetrics is part of their training. They provide comprehensive healthcare for the female reproductive system.

8. What is the difference between a Gynaecologist and an Obstetrician?

A Gynaecologist specializes in women's reproductive health, while an Obstetrician focuses on pregnancy, childbirth, and postpartum care. Many Gynaecologists are also trained Obstetricians. Pregnant women can consult either, but Gynaecologists are best suited for general reproductive health concerns.

9. What procedures do Gynaecologists/Obstetricians perform?

Gynaecologists commonly perform procedures such as Dilation and Curettage (D&C), removing the uterine lining, and Hysteroscopy, a minimally invasive treatment for uterine conditions.

Obstetricians manage childbirth through normal delivery and, when necessary, Cesarean section (C-section) to ensure safe delivery for mother and child. These specialists provide comprehensive women's health care, covering both preventative and treatment aspects.
