What are Dr. Jarugumilli Srikanth's credentials?

Dr. Jarugumilli Srikanth holds an MBBS and a DNB in Orthopedics/Orthopedic Surgery.

Who is an Orthopaedist?

An orthopaedist, or orthopedic surgeon, is a physician specializing in the diagnosis and treatment of musculoskeletal system disorders. They address conditions affecting bones, joints, ligaments, muscles, and tendons. Treatment areas include arthritis, back pain, sports injuries, and leg/foot pain.

What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, there's a key distinction. An orthopaedist manages musculoskeletal conditions, offering pre- and post-surgical care. An orthopaedic surgeon provides identical care but also performs surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, arthritis, and various other injuries. Both specialize in musculoskeletal health; the surgeon's role includes operative treatment.

Does an Orthopedic Surgeon treat foot and ankle problems?

Yes, orthopedic surgeons specialize in musculoskeletal health, encompassing foot and ankle conditions. They treat various issues, including bunions, ankle sprains, arthritis, and sports injuries. Diagnosis utilizes imaging techniques, and treatment plans are tailored to the condition's severity.
