6. What is Dr. Jairamchander Pingle's experience?

Dr. Jairamchander Pingle has 45 years of experience in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating skeletal system disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg and foot pain. Orthopedic care encompasses the diagnosis and treatment of bone, joint, and muscle injuries and diseases.

8. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, an orthopaedist and an orthopaedic surgeon differ in their scope of practice. Both specialize in the musculoskeletal system, offering pre- and post-surgical care for conditions like back pain, arthritis, and bone tumors. However, only an orthopaedic surgeon performs surgical procedures such as those for ruptured discs or carpal tunnel syndrome.

9. Does an Orthopedist treat foot and ankle problems?

Yes, orthopedists specialize in musculoskeletal issues, including foot and ankle conditions. They treat various problems such as bunions, sprains, arthritis, and sports injuries. Diagnosis often involves imaging, and treatment depends on the condition's severity. Orthopedic care encompasses comprehensive foot and ankle treatment.
