What is Dr. Jayant Kumar Hota's experience?

Dr. Jayant Kumar Hota possesses 20 years of experience in nephrology.

Who is a nephrologist?

A nephrologist is a kidney doctor specializing in the diagnosis, treatment, and management of kidney diseases. They are experts in nephrology.

Can a nephrologist treat a urinary tract infection?

Nephrologists specialize in kidney disease. While they can manage a urinary tract infection (UTI) that has affected the kidneys, a general practitioner or urologist can also treat UTIs. Treatment depends on the location and severity of the infection.

Does a nephrologist perform kidney transplants?

Kidney transplant surgery is performed by a nephrologist specializing in transplant surgery or a nephrosurgeon. Not all nephrologists perform this procedure.

When should I consult a nephrologist?

Consult a nephrologist if you experience symptoms such as burning or bloody urine, urinary dribbling, or have risk factors including high blood pressure, diabetes, heart disease, or a family history of kidney disease. These could indicate kidney problems requiring specialist care.
