Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a physician specializing in children's healthcare. Their expertise encompasses physical, behavioral, and mental health, addressing illnesses ranging from minor ailments to complex disorders. Pediatric care begins at birth.

What age range of children do your Paediatricians treat?

Our pediatricians provide care for children from birth to 18 years. Infants (0-2 years) may require frequent visits, while children aged 2-5 typically have annual well-child checkups. Annual visits are recommended for children up to age 18.

Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health. While some pediatricians, with specialized surgical training, may perform procedures, pediatric surgeons are specialists in surgical care for children. Pediatricians primarily provide non-surgical care. Pediatric surgeons' expertise ranges from minor procedures (e.g., foreign body removal) to complex surgeries (e.g., cardiac surgery).
