6. What is Dr. Karthik Pingle's professional experience?

Dr. Karthik Pingle has 14 years of experience in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating musculoskeletal disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg and foot pain. Orthopedic specialists provide comprehensive care for the skeletal system.

8. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, orthopaedists and orthopaedic surgeons have distinct roles. Orthopaedists manage musculoskeletal system conditions, offering pre- and post-surgical care. Orthopaedic surgeons provide the same care, but also perform surgical procedures for conditions like back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedic Doctor Treat Foot and Ankle Issues?

Yes, orthopedic specialists treat musculoskeletal conditions, including foot and ankle problems. These include bunions, sprains, arthritis, and sports injuries. Diagnosis utilizes imaging, and treatment varies depending on severity.

10. Do I need a referral to see an Orthopedist?

No referral is needed to schedule an appointment with an orthopedist. Appointments can be booked directly. Consultations take place at the orthopedist's clinic or a healthcare facility. However, some patients may initially see a general physician for musculoskeletal issues; a referral from the physician might then be provided for specialized orthopedic care.
