Dr Kondammal R holds MBBS, MD; DGO; DNB, reflecting her comprehensive education in the field of Obstetrics & Gynecology.

6. How many years of experience does Dr. Kondammal R have?

Dr. Kondammal R possesses over 29 years of experience in the medical field.

7. Who is a Gynaecologist?

A Gynaecologist is a medical doctor specializing in women's reproductive health. This includes the vagina, ovaries, uterus, and breasts. Gynaecologists are also trained in Obstetrics, managing pregnancy and childbirth.

8. What is the difference between a Gynaecologist and an Obstetrician?

A Gynaecologist manages women's reproductive health, while an Obstetrician specializes in pregnancy, childbirth, and postpartum care. Many Gynaecologists also have obstetrics training. During pregnancy, consultation with either a Gynaecologist or an Obstetrician is suitable. However, for female reproductive system issues, a Gynaecologist is the appropriate specialist.

9. What procedures do Gynaecologists and Obstetricians perform?

Gynaecologists perform procedures such as Dilation and Curettage (D&C), removing the uterine lining via suction or curette, and Hysteroscopy, a minimally invasive uterine procedure. Obstetricians manage childbirth through normal delivery and C-sections, the latter performed when complications arise to ensure safe delivery. These specialists provide comprehensive women's healthcare, covering both gynecological and obstetric needs.
