Frequently Asked Questions

1. Where does Dr. Kuldeep Singh practice?

Dr. Kuldeep Singh's practice is located at Apollo Hospitals, Delhi. This hospital offers comprehensive healthcare services and a wide range of medical specialties.

2. Who is Dr. Kuldeep Singh?

Dr Kuldeep Singh is a renowned Plastic Surgeon with over 31 years of experience. He practices in Delhi at Apollo Hospitals Delhi. Dr Kuldeep Singh holds a degree in MBBS, MS (surgery), MCh (plastic surgery). He provides treatments including Rejuvenation Therapy. He specializes in treating conditions like Graft Versus Host Disease, Burns Injury Rehabilitation, Aesthetics.

3. What is Dr. Kuldeep Singh's specialization?

Dr Kuldeep Singh specializes in Plastic Surgery. He has expertise in treating conditions such as Graft Versus Host Disease, Burns Injury Rehabilitation, Aesthetics. His key treatments include Rejuvenation Therapy.

4. What are Dr. Kuldeep Singh's medical qualifications?

Dr Kuldeep Singh holds MBBS, MS (surgery), MCh (plastic surgery), reflecting his comprehensive education in the field of Plastic Surgery.

5. How many years of experience does Dr. Kuldeep Singh have?

Dr. Kuldeep Singh has 33 years of experience in the medical field. His extensive experience encompasses various medical practices.

6. Who is a plastic surgeon?

A plastic surgeon specializes in reconstructive and cosmetic surgery. They use surgical procedures to reshape, remodel, and reduce scarring and disfigurement resulting from birth defects, accidents, injuries, burns, or diseases. Their work aims to improve both appearance and function.

7. Can a general surgeon also be a plastic surgeon?

Plastic surgery requires completion of a general surgical residency. Thus, a general surgeon, after additional specialized training, can practice plastic surgery.

8. Does a plastic surgeon only perform cosmetic surgery?

Yes, a plastic surgeon's primary focus is cosmetic surgery, enhancing the aesthetic appeal of body features. They specialize in procedures to improve appearance.

9. Do plastic surgeons receive laser treatment training?

Yes, plastic surgeons' training includes laser treatments alongside other surgical procedures. These lasers treat various conditions, such as facial and body hair reduction, scar revision, and wart/mole removal.

10. Is a dermatologist different from a plastic surgeon?

Yes, while dermatologists and plastic surgeons share some overlapping procedures, their expertise differs significantly. Dermatologists specialize in medical and cosmetic skin treatments, managing skin conditions with medications. However, they do not typically perform surgeries such as skin grafts, hair transplants, or facial reconstructive procedures. Plastic surgeons, conversely, focus on surgical procedures to enhance or restore appearance. This includes complex surgeries like cleft lip repair and facial sculpting.
