6. How many years of experience does Dr. Milind Shah have?

Dr. Milind Shah possesses 37 years of experience in the medical field. His extensive career includes various medical practices.

7. Who is a general surgeon?

A general surgeon is a qualified medical doctor specializing in surgical procedures. Their expertise encompasses abdominal surgeries (stomach, liver, colon, rectum) and breast surgery, among other procedures. They are trained to diagnose and treat a wide range of conditions requiring surgical intervention.

8. What surgical procedures does a general surgeon perform?

General surgeons perform open and laparoscopic surgeries on the digestive tract, breast, hernia, appendix, abdomen, soft tissues, endocrine system, and gallbladder. They also manage critically ill patients. Their expertise encompasses a wide range of general surgery procedures.

9. Can a general surgeon perform cancer surgery?

No. Surgical oncologists, specialists in cancer treatment, are the only doctors qualified to perform cancer surgery. Their specialized training ensures optimal cancer care and surgical outcomes.

10. How does a general surgeon differ from a specialist surgeon?

General surgeons possess expertise in abdominal surgery, encompassing procedures like hernia repair and trauma management. Specialist surgeons, conversely, concentrate on specific areas, such as oncology, neurosurgery, orthopedics, or cosmetic surgery, offering focused skills and knowledge within their chosen sub-specialty.
