6. What is Dr. Nandakumar Natarajan's experience?

Dr. Nandakumar Natarajan has nine years of experience in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a physician specializing in the diagnosis and treatment of musculoskeletal disorders. They address conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopedic care encompasses a range of skeletal system problems.

8. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, orthopaedists and orthopaedic surgeons differ in their scope of practice. Orthopaedists manage musculoskeletal system conditions, offering pre- and post-surgical care. Orthopaedic surgeons provide the same care but additionally perform surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedic Specialist Treat Foot and Ankle Issues?

Yes, orthopedic specialists treat musculoskeletal conditions, including foot and ankle problems. They manage common conditions such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis often involves imaging, and treatment varies depending on the condition's severity.

10. Do I need a referral to see an Orthopedic doctor?

You can schedule a direct appointment with an orthopedic specialist at their clinic or healthcare center. While a referral from a general physician is sometimes provided after initial assessment of

musculoskeletal issues, it's not always required for an orthopedic consultation.
