Dr. Neelam Suri possesses 24 years of experience in the medical field. Further details regarding her professional history are available upon request.

7. Who is a Gynaecologist?

A Gynaecologist is a medical specialist in women's health. They focus on the female reproductive system, including the vagina, ovaries, uterus, and breasts. Gynaecologists also provide obstetric care, managing pregnancy and childbirth.

8. What is the difference between a Gynecologist and an Obstetrician?

A Gynecologist manages women's reproductive health, while an Obstetrician focuses on pregnancy, childbirth, and postpartum care. Many Gynecologists are also trained in Obstetrics. During pregnancy, consultation with either is appropriate. For non-pregnancy related reproductive health issues, a Gynecologist is the specialist to consult.

9. What procedures do Gynaecologists and Obstetricians perform?

Gynecologists perform procedures such as Dilation and Curettage (D&C), removing the uterine lining, and Hysteroscopy, a minimally invasive uterine treatment. Obstetricians manage childbirth through normal delivery and C-sections, performing surgery when necessary for safe delivery. These specialists provide comprehensive women's health services, encompassing pregnancy care and managing gynecological conditions.
