Overview

Dr. Pakhee Aggarwal is a highly experienced Gynaecological Oncologist based in South Delhi, with 18 years of dedicated service in the field of women's health. As a female doctor specializing in Gynaecological Oncology and Robotic Surgery, Dr. Aggarwal offers a unique blend of expertise and innovation, utilizing advanced robotic techniques to provide the best possible care for her patients. She is well-versed in both English and Hindi, ensuring effective communication with a diverse patient base.

Dr. Aggarwal's educational qualifications are exemplary. She holds an MBBS and an MS, along with prestigious memberships and fellowships including MRCOG (UK), FICOG, MIPHA, and advanced training in Robotic Gynaecology from notable institutions across Canada and the UK. She completed a Robotic Surgery Fellowship from the International Union for Cancer Control at McGill University in Montreal and received specialized training from the European Society of Gynaecological Oncology in Belgium.

Her accolades also include a Gynae-Oncology Fellowship funded by the Commonwealth Scholarship Commission in the UK, showcasing her commitment to excellence in her field. Dr. Aggarwal is affiliated with Apollo Hospitals, where she integrates her extensive training and innovative surgical techniques to improve patient outcomes in gynaecological cancer care. With her profound knowledge and advanced skills, Dr. Pakhee Aggarwal is a trusted choice for patients seeking comprehensive and compassionate gynaecological oncology services.

You can schedule an in-person appointment with Dr. Pakhee Aggarwal online. Please contact Apollo Hospitals directly to make your appointment.

8. What is Dr. Pakhee Aggarwal's education qualification?

Dr. Pakhee Aggarwal holds an MBBS, MS in Obstetrics & Gynaecology, and MRCOG (UK).

9. Who is a Gynaecologist?

A Gynaecologist is a medical doctor specializing in women's health. Their expertise encompasses the female reproductive system, including the vagina, ovaries, uterus, and breasts. Gynaecologists are also trained in Obstetrics, managing pregnancy and childbirth.

10. What is the difference between a Gynaecologist and an Obstetrician?

A Gynaecologist manages women's reproductive health, while an Obstetrician focuses on pregnancy, childbirth, and postnatal care. Many Gynaecologists are also trained in Obstetrics. During pregnancy, consultation with either specialist is suitable; however, for general reproductive health concerns, a Gynaecologist is the appropriate choice.

11. What procedures do Gynaecologists/Obstetricians perform?

Gynecologists perform procedures such as Dilation and Curettage (D&C), removing the uterine lining via suction or curette, and Hysteroscopy, a minimally invasive uterine procedure. Obstetricians manage childbirth through normal delivery and Cesarean section (C-section) for complicated deliveries, ensuring mother and baby safety. These specialists provide comprehensive women's health care, including pregnancy and childbirth management.
