5. How many years of experience does Dr. Ramkumar K have?

Dr. Ramkumar K possesses 27 years of experience in gastroenterology.

6. Who is a gastroenterologist?

A gastroenterologist is a medical specialist in the diagnosis and treatment of gastrointestinal (GI) tract and liver diseases. Gastroenterology encompasses diseases affecting the entire digestive system, from the mouth to the anus. This branch of medicine focuses on the comprehensive care of digestive health.

7. Which body parts' disorders are treated by a gastroenterologist?

Gastroenterologists treat disorders of the digestive system, including the stomach, liver, esophagus, small intestine, colon, rectum, pancreas, gallbladder, and bile ducts.

8. Can a Gastroenterologist perform a colonoscopy?

Yes, gastroenterologists perform colonoscopies. Their specialized training in gastrointestinal diseases includes this procedure.

9. Is endoscopy a safe procedure?

Endoscopy is generally a safe medical procedure. While complications are rare, bleeding is a potential risk, particularly when a biopsy is performed or treatment for digestive diseases is involved. The risk of bleeding is slightly higher in these instances.

10. When should I see a gastroenterologist?

Seek immediate gastroenterologist consultation for persistent heartburn, diarrhea, suspected gallstones, bloating, stomach ulcers, constipation, or the need for a colonoscopy.

Gastroenterologists also perform cancer screenings.
