6. What is Dr. Richa Thukral's professional experience?

Dr. Richa Thukral possesses 21 years of experience in the medical field. Further details regarding her professional history are available upon request.

7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a physician specializing in children's healthcare. Their expertise encompasses physical, behavioral, and mental well-being, addressing a wide range of conditions from minor ailments to complex disorders. Pediatric care begins at birth.

8. What age range of children do your Paediatricians treat?

Our Paediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent checkups, while toddlers (2-5 years) typically have annual wellness visits. Annual checkups continue through age 18.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health. While some pediatricians, with specialized surgical training, may perform procedures, pediatric surgeons are specialists in surgical care for children.

Pediatricians typically handle non-surgical treatment. Pediatric surgeons' expertise ranges from minor procedures (like removing foreign objects) to complex operations (such as cardiac surgery).
