7. How can I schedule an appointment with Dr. Sameer Chaudhari?

To schedule an in-person appointment with Dr. Sameer Chaudhari, please book online. Contact the hospital directly for scheduling assistance.

8. Who is an Orthopaedist?

An orthopaedist is a physician specializing in diagnosing and treating musculoskeletal disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopaedic specialists provide comprehensive care for the skeletal system.

9. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, an orthopaedist focuses on musculoskeletal system conditions, offering pre- and post-surgical care. An orthopaedic surgeon provides the same care but also performs surgeries for conditions such as back pain, disc ruptures, bone tumors, carpal tunnel syndrome, arthritis, and other injuries. Both specialize in musculoskeletal health; the key difference lies in surgical intervention.
