Overview

Dr. Sharat Putta is a distinguished Liver Transplant Specialist with 28 years of extensive experience, currently practicing at Apollo Health City Jubilee Hills, Hyderabad. He holds a comprehensive educational background, including an MBBS from KMC, APUHS, India (NIMS) in 1996, followed by MRCP (UK) in January 2000, and a CCT in Gastroenterology and General Internal Medicine in December 2009. His advanced training in endoscopic procedures, including ERCP and EUS, underscores his expertise in managing complex liver conditions. Dr. Putta is renowned for his proficiency in liver transplantation, hepatology, and interventional procedures, consistently delivering innovative treatments tailored to individual patient needs. His commitment to patient-centered care is evident in his approach, ensuring that each patient receives comprehensive support throughout their treatment journey. He actively participates in research and academic discussions, contributing to advancements in liver health and transplantation. An engaging speaker, Dr. Putta frequently presents

at medical conferences, sharing insights on the latest developments in hepatology. He is dedicated to fostering a collaborative environment that prioritizes medical excellence and compassionate care. Fluent in English, Hindi, and Telugu, Dr. Putta effectively communicates with a diverse patient population, ensuring that all patients feel understood and supported in their healthcare journey.

Experience

- I am currently working as a consultant in Hepatology and GI department in Apollo Health City in Hyderabad. I am the lead consultant for liver services including Hepatology and liver transplantation.
- I worked as a consultant hepatologist at Krishna Institute of Medical Sciences, in Minister Road, Hyderabad, India, which is a 1000 bed tertiary referral unit from July 2012 until October 2024. I was the clinical lead for hepatology services, including dedicated hepatology clinics, liver transplantation and hepatopancreatobiliary endoscopy including ERCP and EUS. I was one of the founding members of the liver unit and transplantation centre in KIMS hospitals. Over the last decade we performed close to 500 cadaver liver transplants in addition to several hundred living related transplantations.
- I was the junior doctors representative in 2007 at the Walsall Manor hospital in the MMC/ OOH practice committee when significant changes were being made to the way out of hours acute care was delivered including introduction of nurse practitioners and withdrawing house officers from the rota.
