### 7. Who is a plastic surgeon?

A plastic surgeon is a medical doctor specializing in surgical procedures that enhance the appearance of facial or bodily features. These surgeries can be reconstructive (for medical reasons) or cosmetic (for aesthetic improvement).

## **8. Can a general surgeon perform plastic surgery?**

A general surgeon can perform plastic surgery only after completing a specialized master's degree (M.Ch) in plastic surgery and gaining relevant experience. Without this certification and experience, performing plastic surgery is not permitted.

## **9. Does a plastic surgeon only perform cosmetic surgery?**

No. Plastic surgeons also conduct reconstructive surgeries addressing deformities from accidents, burns, or birth defects. Beyond cosmetic procedures, their expertise extends to surgeries involving the urinary and genital systems, as well as the hands and legs. This includes reconstructive and aesthetic procedures.

## **10. Do plastic surgeons have training in laser treatment?**

Plastic surgeons incorporate laser treatment extensively in cosmetic surgery. Their training includes various laser procedures such as hair removal, skin resurfacing, and acne treatment.
