Frequently Asked Questions

1. Where does Dr. Somnath Bhattacharya practice?

Dr. Somnath Bhattacharya's practice is located at Apollo Multispecialty Hospitals. This hospital offers comprehensive healthcare services and is a leading provider in the region.

2. Who is Dr. Somnath Bhattacharya?

Dr Somnath Bhattacharya is a renowned General Surgeon with over 19 years of experience. He practices in Kolkata at Apollo Multispecialty Hospitals. Dr Somnath Bhattacharya holds a degree in MBBS, DNB. He provides treatments including Anal Fissure Treatment Non Surgical. He specializes in treating conditions like Facial nerve disorders, Soft Tissue Injury, Genital Injury.

3. Why do patients choose Dr. Somnath Bhattacharya?

Patients select Dr. Somnath Bhattacharya for procedures including Non-Surgical Fat Loss, Breast Reduction Surgery, and Rhinoplasty. For further details on his expertise, please refer to his professional profile.

4. What is Dr. Somnath Bhattacharya's specialization?

Dr Somnath Bhattacharya specializes in General Surgery. He has expertise in treating conditions such as Facial nerve disorders, Soft Tissue Injury, Genital Injury. His key treatments include Anal Fissure Treatment Non Surgical.

5. What are Dr. Somnath Bhattacharya's medical qualifications?

Dr Somnath Bhattacharya holds MBBS, DNB, reflecting his comprehensive education in the field of General Surgery.

6. How many years of experience does Dr. Somnath Bhattacharya have?

Dr. Somnath Bhattacharya has 27 years of experience in the medical field.

7. Who is a general surgeon?

A general surgeon is a physician specializing in operative procedures. Their expertise encompasses abdominal surgeries (stomach, liver, colon, rectum) and breast surgery, among other procedures. They address various medical conditions requiring surgical intervention.

8. What surgical procedures does a general surgeon perform?

General surgeons conduct open and laparoscopic procedures on the digestive tract, breast, hernia, appendix, abdomen, soft tissues, endocrine system, and gallbladder. They also manage critically ill patients. This includes expertise in abdominal surgery, hernia repair, and endocrine surgery.

9. Can a general surgeon perform cancer surgery?

No. Surgical oncology specialists are uniquely qualified to perform cancer surgeries due to their specialized training in cancer treatment. General surgeons lack this specific expertise.

10. How does a general surgeon differ from a specialist surgeon?

General surgeons possess expertise in abdominal surgeries, encompassing procedures like hernia repair and trauma management. Specialist surgeons, conversely, focus on a particular body area or tissue type. Their areas of specialization may include oncology, neurosurgery, cosmetic surgery, or orthopedics.
