Overview

Dr. Shivani Grover is a highly skilled and dedicated Consultant Ophthalmologist with over 9 years of experience in diagnosing and managing a wide range of eye conditions. Known for her compassionate patient care and clinical expertise, she brings a comprehensive approach to eye health across all age groups.

Her areas of special interest include Adult Cataract Surgery, Squint Surgeries, and Pediatric Eye Surgeries, along with the management of pediatric eye diseases such as myopia and amblyopia. She is also well-versed in advanced LASIK and refractive surgeries, providing patients with safe and effective solutions for vision correction.

She has significant experience in treating complex conditions like neuro-ophthalmological disorders, corneal diseases, uveitis, and glaucoma, ensuring thorough and personalized care. Additionally, her expertise in handling ocular trauma cases has made her a trusted name in emergency eye care.

At Apollomedics Hospital Lucknow, Dr. Shivani Grover plays a key role in delivering world-class ophthalmic services, helping patients regain and maintain their vision through cutting-edge treatment and compassionate care.
