6. How many years of experience does Dr. Abdul Ahad have?

Dr. Abdul Ahad has over 9 years of experience in the medical field. Details of his professional history are available upon request.

7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a physician specializing in children's healthcare. They manage the physical, behavioral, and mental well-being of children, treating illnesses ranging from minor conditions to serious disorders. Pediatric care begins at birth.

8. What age range of children do your Paediatricians treat?

Apollo Hospitals' pediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent visits, while children aged 2-5 typically need annual checkups. Annual visits continue until the child reaches 18 years. Comprehensive pediatric care is available throughout this age range.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health. While some pediatricians, with specialized surgical training, may perform procedures, pediatric surgeons are specialists in surgical interventions for children, ranging from minor procedures (e.g., foreign body removal) to complex surgeries like cardiac surgery. Pediatricians primarily manage children's health using non-surgical methods.
