How many years of experience does Dr. Ajaya Kumar have?

Dr. Ajaya Kumar has 24 years of experience in internal medicine. His extensive experience spans various medical practices.

What is internal medicine?

Internal medicine is a medical specialty focusing on the diagnosis and treatment of adult diseases, ranging from common to complex conditions. Internal medicine specialists manage both acute and chronic illnesses in adults.

Can an internal medicine specialist treat children?

Internal medicine specialists primarily treat adults. However, some possess additional training allowing them to treat adolescents, providing a transitional care approach between pediatrics and adult medicine.

Can an internal medicine specialist perform surgery?

Internal medicine specialists focus on diagnosing and treating chronic adult illnesses. While their medical training includes surgical concepts, they are not qualified to perform surgery. Instead, they refer patients needing surgical intervention to surgeons and may participate in co-managing surgical cases.

Is an internist and internal medicine specialist the same?

Internal medicine specialists and internists are equivalent. An internist, also known as an internal medicine specialist, provides expertise in diagnosing and treating chronic illnesses. They may consult with each other on complex cases. Both roles function within diverse healthcare environments.

What Internal Medicine Specialties are Available?

Apollo Hospitals offers a wide range of internal medicine specialties, including cardiology (heart disease), endocrinology (hormonal disorders), gastroenterology (digestive issues), hematology (blood disorders), oncology (cancer treatment), infectious disease management, nephrology (kidney disease), geriatrics (care for the elderly), allergy and immunology, sports medicine, and rheumatology (joint, muscle, and bone disorders).
