Frequently Asked Questions

1. Where does Dr. Ajay Wadhawan practice?

Dr. Ajay Wadhawan is a physician at Apollo Hospitals, Noida. He provides comprehensive healthcare services at this location. Contact the hospital for appointments.

2. Who is Dr. Ajay Wadhawan?

Dr Ajay Wadhawan is a renowned Orthopaedic Surgeon with over 31 years of experience. He practices in Noida at Apollo Hospitals Noida. Dr Ajay Wadhawan holds a degree in MBBS, MS(Ortho.). He specializes in treating conditions like Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation.

3. Why do patients visit Dr. Ajay Wadhawan?

Patients seek Dr. Ajay Wadhawan's expertise for stem cell therapy in orthopedics, spinal treatments, and heat therapy. For further details, please consult his profile.

4. What is Dr. Ajay Wadhawan's specialization?

Dr Ajay Wadhawan specializes in Orthopaedic Surgeon. He has expertise in treating conditions such as Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation. His key treatments include Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints.

5. What are Dr. Ajay Wadhawan's medical qualifications?

Dr Ajay Wadhawan holds MBBS, MS(Ortho.), reflecting his comprehensive education in the field of Orthopaedic Surgeon.

6. How many years of experience does Dr. Ajay Wadhawan have?

Dr. Ajay Wadhawan has 39 years of experience in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating musculoskeletal disorders. They address conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopedic care encompasses the entire skeletal system.

8. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, an orthopaedist manages musculoskeletal system conditions, offering pre- and post-surgical care. An orthopaedic surgeon provides identical care but also performs surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedist treat foot and ankle problems?

Yes, orthopedists specialize in musculoskeletal health, encompassing foot and ankle conditions. They treat common issues such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis utilizes imaging techniques, and treatment approaches vary based on the condition's severity. Orthopedic care provides comprehensive foot and ankle treatment.

10. Do I need a doctor referral to see an Orthopedic specialist?

Appointments with orthopedic specialists can be booked directly. Consultations typically occur at the specialist's clinic or a healthcare facility. While a referral from a general physician following an initial assessment of musculoskeletal issues is sometimes provided, it's not always required for an orthopedic consultation.
