Who is a dentist?

A dentist is a doctor specializing in dentistry, encompassing oral healthcare for the mouth, teeth, and gums. Services include fillings, extractions, teeth cleaning and polishing, and procedures like root canals. Specialized areas of dentistry require advanced training.

What education qualifications are mandatory for a Dentist?

To practice dentistry, a doctoral degree in dental medicine or surgery (DDS or DMD) is required. This is preceded by a four-year bachelor's degree in a science-related field. Successful completion of a dental admission exam and enrollment in an accredited dental school are essential next steps.

Should I consult a dentist for bad breath?

Persistent bad breath, or halitosis, often stems from poor oral hygiene. However, it can sometimes indicate an underlying medical condition. A dental examination is crucial for diagnosis. Your dentist will thoroughly assess your teeth and gums to identify the cause of your bad breath and recommend appropriate treatment.
