## Overview

Dr. Amita Mahajan is a highly experienced Paediatric Oncologist based in South Delhi, with over 31 years of dedicated service in the field of pediatric oncology. She holds a distinguished academic background with qualifications including MBBS, MD, and MRCP. Dr. Mahajan is committed to providing comprehensive care and innovative treatment options for children battling cancer, ensuring that her young patients receive the best possible outcomes. As a female specialist, she brings a compassionate approach to her practice, understanding the unique emotional and medical needs of children and their families.

Fluent in both English and Hindi, Dr. Mahajan bridges communication gaps, offering support to a diverse patient population. Her expertise in pediatric oncology encompasses a range of services from diagnosis to treatment planning, using the latest advancements in medical technology and therapeutic techniques. She is recognized for her ability to work collaboratively with multidisciplinary teams to deliver personalized care.

Recognized for her contributions to the field, Dr. Mahajan remains at the forefront of research and clinical practices, continually seeking to improve the standards of care in pediatric oncology. She is dedicated not only to treating her patients but also to educating families about cancer and its management, empowering them to be active participants in their child's treatment journey. Dr. Amita Mahajan is associated with Apollo Hospitals, a leading healthcare provider known for its excellence in medical care.
