Dr. Anju Mangla holds an MBBS and an MD in Dermatology, Venereology, and Leprosy.

8. Who is a dermatologist doctor?

A dermatologist is a medical doctor specializing in the diagnosis and treatment of skin, hair, and nail disorders, as well as mucous membrane conditions. Their expertise encompasses a wide range of cosmetic concerns and they provide rejuvenative treatments. Dermatologists manage over 3,000 skin conditions, including acne, psoriasis, and skin cancer.

9. When should I consult a dermatologist?

Consult a dermatologist immediately for abnormal skin, hair, nail, or mucous membrane symptoms. Dermatologists also address cosmetic concerns and diagnose serious conditions like skin cancer.

10. Should I consult a dermatologist for laser skin treatments?

Yes, consulting a dermatologist for laser skin treatments is recommended. Dermatologists are qualified medical professionals specializing in skin health, trained to perform laser treatments and skin grafts. Laser treatment utilizes a concentrated light beam to address various skin conditions such as tumors, warts, moles, tattoos, birthmarks, scars, wrinkles, and unwanted hair removal.
