Overview

Dr. S V S Sreedhar is a renowned Pediatrician based in Hyderabad, Telangana, boasting 28 years of extensive clinical experience in the field of pediatrics and pediatric emergency medicine. As the Senior Pediatrician and Head of the Pediatric Emergency Department, he has demonstrated exceptional capabilities in managing critical pediatric cases. He has successfully served as the Critical Care Incharge at Narayana Medical College in Nellore, where he has played a pivotal role in pediatric emergency scenarios, including performing over 50 critical intubations and more than 30 intraosseous procedures. Dr. Sreedhar is not only a practitioner but also an academic leader, having completed multiple advanced certification courses, including the Pediatric Advanced Life Support (PALS) Instructor Course in 2014, and participating in prestigious conferences like the National Assembly On Pediatric Emergency Medicine (NAPEM) in 2014. He has earned qualifications including MBBS, MD in Pediatrics, and a Fellowship in Pediatric Emergency Medicine (FPEM), along with a PG Diploma in Infectious Diseases from Australia. Additionally, he serves as a Clinical Supervisor for the Royal College of Emergency Medicine (RCEM) in the UK and as a Clinical Tutor at Macquarie University in Australia. Fluent in multiple languages including English, Hindi, Telugu, and Tamil, Dr. Sreedhar's commitment to pediatric care is evident in both his practice and his academic contributions. Patients and their families can expect not only expert medical care but also a compassionate and educational approach to treatment.

How many years of experience does Dr. Annam Sridhar have?

Dr. Annam Sridhar possesses 27 years of experience in ophthalmology.

Who is a General Physician?

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. They treat various diseases not requiring surgery, covering cardiovascular, respiratory, neurological, hematological, endocrine, and gastrointestinal systems. Some GPs may develop sub-specialties within these systems.

What are the educational requirements to become a General Physician?

General physicians, also known as primary care physicians, require completion of a medical residency in primary care following graduation from medical school. Prerequisites include a science-based bachelor's degree, a minimum GPA, successful medical school completion, and foundational medical training. A three-year residency commitment is mandatory.

When should I consult a General Physician?

Consult a general physician for a wide range of non-surgical health concerns. These include cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine system issues. A GP is typically the first point of contact for most health problems.

Do General Physicians offer home consultations?

General practitioners (GPs) provide comprehensive primary care, including check-ups, immunizations, and treatment for various medical conditions. They manage patients across age groups. Whether a GP offers home consultations is dependent on their individual practice and availability. Home visits may be an option for routine examinations.

Can a General Physician perform surgery?

No. General physicians specialize in primary care, providing non-surgical treatment for illnesses and injuries. Surgical procedures are performed by general surgeons. Physicians focus on primary care, long-term patient relationships, and non-surgical methods like medication and physical therapy.
