6. How many years of experience does Dr. Anuja Thomas have?

Dr. Anuja Thomas possesses 15 years of experience in her medical field. Information regarding her previous practice locations is available upon request.

7. Who is a Gynaecologist?

A gynecologist is a medical doctor specializing in the female reproductive system. This includes the vagina, ovaries, uterus, and breasts. Gynecologists also possess expertise in obstetrics, managing pregnancy and childbirth.

8. What is the difference between a Gynaecologist and an Obstetrician?

A Gynaecologist focuses on the overall health of the female reproductive system. An Obstetrician specializes in pregnancy, childbirth, and postnatal care. Many Gynaecologists are also trained in Obstetrics. During pregnancy, consultation with either is appropriate; however, for issues concerning the female reproductive system, a Gynaecologist should be consulted.

9. What procedures do Gynaecologists and Obstetricians perform?

Gynecologists perform procedures such as Dilation and Curettage (D&C), removing the uterine lining via suction or curette, and Hysteroscopy, a minimally invasive treatment for uterine

conditions. Obstetricians manage childbirth through normal delivery and Cesarean section (C-section) for complicated pregnancies, ensuring maternal and fetal well-being. These specialists provide comprehensive women's health care.
