How many years of experience does Dr. Arvind Garg have?

Dr. Arvind Garg has 38 years of experience in healthcare. His extensive career spans various medical practices.

Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a medical doctor specializing in children's healthcare. Their expertise encompasses physical, behavioral, and mental health, providing care for children from birth through adolescence, addressing all health concerns—from routine check-ups to complex medical conditions.

What age range of children do your Paediatricians treat?

Our pediatricians provide care for children from birth through age 18. Newborns and toddlers (0-2 years) may require frequent visits. Annual checkups are recommended for children aged 2-5. Annual visits continue for children up to 18 years old.

Can a Pediatrician Perform Surgery?

Pediatricians focus on children's physical and mental health. Pediatric surgeons specialize in surgical procedures for children. While some pediatricians, with specialized training, may perform surgeries, others primarily provide non-invasive care. Pediatric surgeons handle a wide range of surgeries, from minor procedures like foreign body removal to complex operations such as cardiac surgery.
