Dr Bana Rupa holds MBBS , M.S (OBG), reflecting her comprehensive education in the field of Obstetrics & Gynecology.

6. What is Dr. Bana Rupa's experience?

Dr. Bana Rupa possesses 7 years of experience in the medical field. Her professional history spans several locations.

7. Who is a Gynaecologist?

A Gynaecologist is a medical specialist focusing on the female reproductive system. This includes the vagina, ovaries, uterus, and breasts. They manage women's health issues related to these organs. Gynaecologists also possess expertise in Obstetrics, handling pregnancy and childbirth.

8. What is the difference between a Gynaecologist and an Obstetrician?

A Gynaecologist focuses on the female reproductive system's health. An Obstetrician specializes in pregnancy, childbirth, and postpartum care. Many Gynaecologists are also trained in Obstetrics. Pregnant women can consult either; however, Gynaecologists should be consulted for female reproductive system issues.

9. What procedures do Gynaecologists/Obstetricians commonly perform?

Gynaecologists perform procedures like Dilation and Curettage (D&C), removing the uterine lining via suction or curette, and Hysteroscopy, a minimally invasive treatment for uterine conditions. Obstetricians manage childbirth through normal delivery and Cesarean section (C-section) for complicated pregnancies, ensuring safe delivery for mother and child. These services represent a core component of women's healthcare at Apollo Hospitals.
