Dr Byreddy Siva Reddy holds a degree in MBBS, MS(Ortho),. He provides treatments including Joint Replacement Surgery, Arthroscopy, Fracture Fixation. He specializes in treating conditions like Carpal Tunnel Syndrome, Shoulder Impingement Syndrome, Sports Injury.

3. Why do patients choose Dr. Byreddy Siva Reddy?

Patients frequently consult Dr. Byreddy Siva Reddy for expertise in Piles Treatment (including non-surgical options) and Skin Allergies. For a complete view of his areas of specialization,

please refer to his detailed professional profile.

4. What is Dr. Byreddy Siva Reddy's specialization?

Dr Byreddy Siva Reddy specializes in Orthopaedics. He has expertise in treating conditions such as Carpal Tunnel Syndrome, Shoulder Impingement Syndrome, Sports Injury. His key treatments include Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints.

5. What are Dr. Byreddy Siva Reddy's medical qualifications?

Dr Byreddy Siva Reddy holds MBBS, MS(Ortho),, reflecting his comprehensive education in the field of Orthopaedics.

6. What is Dr. Byreddy Siva Reddy's experience?

Dr. Byreddy Siva Reddy has 4 years of experience in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating musculoskeletal disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopedic care encompasses the entire skeletal system.

8. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, there's a key distinction. An orthopaedist manages musculoskeletal system conditions, offering pre- and post-surgical care. An orthopaedic surgeon provides identical care but also performs surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedic Surgeon treat foot and ankle problems?

Yes, orthopedic surgeons specialize in musculoskeletal health, encompassing foot and ankle conditions. They treat various foot and ankle issues, including bunions, sprains, arthritis, and sports injuries. Diagnosis utilizes imaging, with treatment tailored to the problem's severity.

10. Does one need a doctor referral to see an Orthopaedist?

One can consult an orthopaedist by booking an appointment. Consultation with the orthopaedist is conducted in his/her clinic or at a healthcare centre. In some cases, patients go to a general

physician for any condition or disorder related to the musculoskeletal system. Once preliminary investigation is done, the general physician may refer the patient to an orthopaedist for further examination.
