Frequently Asked Questions

1. Where does Dr. Dharmaraj Yadav practice?

Dr. Dharmaraj Yadav's medical practice is located at Apollo Hospitals, Navi Mumbai. He provides healthcare services at this hospital location.

2. Who is Dr. Dharmaraj Yadav?

Dr Dharmaraj Yadav is a renowned Orthopaedic Surgeon with over 27 years of experience. He practices in Mumbai at Apollo Hospitals Navi Mumbai. Dr Dharmaraj Yadav holds a degree in MBBS, MS (orth). He provides treatments including Pelvis Fracture Treatment Management,

Sports Injury Treatment Management, Regenerative Therapy For Joints. He specializes in treating conditions like Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation.

3. What is Dr. Dharmaraj Yadav's specialization?

Dr Dharmaraj Yadav specializes in Orthopaedics. He has expertise in treating conditions such as Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation. His key treatments include Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints.

4. What are Dr. Dharmaraj Yadav's medical qualifications?

Dr Dharmaraj Yadav holds MBBS, MS (orth), reflecting his comprehensive education in the field of Orthopaedics.

5. How many years of experience does Dr. Dharmaraj Yadav have?

Dr. Dharmaraj Yadav possesses 13 years of experience in orthopedics. His professional history details his extensive experience in the field.

6. How can I schedule an appointment with Dr. Dharmaraj Yadav?

You can schedule an in-person appointment with Dr. Dharmaraj Yadav online. Please visit the hospital's website or contact the hospital directly to make your booking.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating skeletal system disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopedic care encompasses a wide range of musculoskeletal health issues.

8. What is the difference between an Orthopaedist and an Orthopaedic Surgeon?

While often used interchangeably, there's a key distinction. Orthopaedists manage musculoskeletal system conditions, offering pre- and post-surgical care. Orthopaedic surgeons provide identical non-surgical care but also perform surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Do Orthopaedists treat foot and ankle issues?

Yes, orthopaedists specialize in musculoskeletal conditions, including foot and ankle problems. They treat various conditions such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis utilizes imaging techniques, and treatment plans vary based on the condition's severity. Orthopaedic care encompasses comprehensive foot and ankle treatment.

10. Do I need a doctor referral to see an Orthopedic specialist?

Appointments with orthopedic specialists can be booked directly. Consultations typically occur at the specialist's clinic or a healthcare facility. While a referral from a general physician following preliminary musculoskeletal system investigations is sometimes provided, it's not always required for an orthopedic consultation.
