6. How many years of experience does Dr. Girija Tickoo have?

Dr. Girija Tickoo possesses 47 years of experience in the medical field. Her extensive career includes various medical practices.

7. Who is a Gynaecologist?

A Gynaecologist is a medical specialist in female reproductive health. This includes the vagina, ovaries, uterus, and breasts. Gynaecologists also have expertise in Obstetrics, managing pregnancy and childbirth.

8. What is the difference between a Gynaecologist and an Obstetrician?

A Gynaecologist focuses on the overall health of the female reproductive system. An Obstetrician specializes in pregnancy, childbirth, and postpartum care. Many Gynaecologists are also trained in Obstetrics. Pregnant women can consult either specialist; however, Gynaecologists should be consulted for issues concerning the female reproductive system.

9. What procedures do Gynaecologists and Obstetricians perform?

Gynaecologists perform procedures such as Dilation and Curettage (D&C), removing the uterine lining via suction or curette, and Hysteroscopy, a minimally invasive treatment for uterine conditions. Obstetricians manage childbirth through normal delivery and Cesarean section (C-section), the latter performed when complications arise to ensure a safe delivery. These specialists provide comprehensive women's healthcare, covering reproductive health and childbirth.

10. Does a Gynaecologist/Obstetrician treat female infertility?

Yes, Gynaecologists/Obstetricians are qualified to manage women's infertility and associated health concerns. A consultation helps assess infertility causes and treatment options. Your Gynaecologist/Obstetrician will provide appropriate care or refer to a specialist if necessary. Infertility treatment, women's health, Obstetrics & Gynaecology.
