Apollo Hospitals reports strong Q3FY24 performance

**Q3 Consolidated revenue grows by 14% YoY; EBITDA by 21%
PAT increases by 60%**

Company strengthens its focus on preventive health with the launch of Paediatric ProHealth Programme to address the rise of non-communicable disease in children.

Apollo Hospitals has emerged as the first private hospital group in India to have a successfully complete CAR-T cell program; the group will now provide access to 'Made in India' CAR-T cell therapy, in its continuing endeavor to deliver state-of-the-art solutions for cancer, epitomized by its iconic Apollo Proton Cancer Centre

Apollo Cancer Centre, Bengaluru inaugurated India's first AI-Driven Precision Oncology Centre (POC). The POC provides precise oncology care, leveraging AI for cancer risk assessment, real-time insights, leading to accurate diagnosis, treatment protocols, and a seamless continuum of care. Data, Technology and analytics will accelerate R&D and improve patient outcomes at Precision Oncology Centers

First multi-specialty hospital inaugurated in Rourkela in partnership with SAIL as an asset light model this will be a 290-bed facility at full capacity.

The company declares an interim dividend of Rs 6 per share (120%)

Consolidated Revenues grew by 14% YoY to Rs 4,851 cr

Healthcare Services Revenues grew 12% YoY, to Rs 2,464 cr

Apollo HealthCo Revenues grew 17% YoY to Rs 2,049 cr; GMV of Apollo 2417 at Rs 658 cr

Apollo Diagnostics Revenues grew by 19% YoY

Consolidated EBITDA grew 21% YOY to Rs 614 cr

Apollo Health Co achieves EBITDA break-even; EBITDA at Rs 2 cr

Consolidated PAT (including Apollo HealthCo and AHLL) at Rs 245 cr, 60% YoY growth

The third quarter of the fiscal year 2024 has been marked by a series of notable initiatives, reaffirming Apollo's dedication to pushing the boundaries of medical excellence as a leader in the industry for over four decades.

In a significant partnership with Steel Authority of India Limited (SAIL), Apollo inaugurated a 290-bed multi-super-specialty hospital in Rourkela, a first such hospital in the region, reinforcing the organization's commitment to extending quality healthcare infrastructure to diverse regions.

This quarter, Apollo launched the first pediatric health assessment for chronic lifestyle diseases in children, under the newly introduced Pediatric ProHealth Programme. This initiative highlights Apollo's commitment to addressing the rise of non-communicable diseases in children, emphasizing preventive and specialized care for children. Apollo Hospitals has introduced a specialized healthcare unit for children in Trichy, India.

In a testament to its commitment to community welfare, Apollo Cancer Centres collaborated with India Post to launch the 'Stamp Out Childhood Cancer' campaign, emphasizing the organization's dedication to raising awareness on childhood cancer. Additionally, the #SaveTheBreast initiative by Apollo Proton Cancer Centre underscores the hospital's focus on raising awareness and promoting conversations around breast cancer.

Recently, Apollo Cancer Centre in Bengaluru also launched India's first AI-Precision Oncology Centre (POC), The AI-POC provides a platform for oncologists, patients, and caregivers to attain optimal outcomes efficiently, harnessing the extensive capabilities offered by artificial intelligence.

Apollo introduced Hyderabad's first Homecare Recovery Program integrated with Cardiac Surgery, underscoring the company's dedication to enhancing patient care beyond the confines of traditional hospital settings. Apollo BGS Hospital in Mysuru introduced 5G Ambulance Services in association with LifeSigns showcasing the group's efforts to enhance access to best quality care across the nation.

Dr. Prathap C Reddy, Chairman, Apollo Hospitals Group said, "In the pursuit of a healthier nation, Apollo remains steadfast in its belief in the importance of preventive healthcare. Our mission is to empower individuals to safeguard their well-being, preventing the onset of Non-Communicable Diseases (NCDs). In a country where 5.8 million lives are claimed annually by NCDs, and 1 in 4 Indians faces the risk of such an outcome before the age of 70, Apollo ProHealth emerges as a beacon of comprehensive personalized prevention. Combining medical expertise with Artificial Intelligence, this program, curated by skilled physicians, evaluates overall health, predicts risks, and guides individuals on a personalized path to wellness. It equips you with the tools and knowledge to make proactive choices for your well-being.

Our vision is resolute – to integrate preventive healthcare into the lives of every Indian. More than a business objective, it's a commitment to our nation's health. Together, let's strive to nurture countless healthy and happy families, shielding them from the growing threat of non-communicable diseases."
